WORD SCRAMBLE

DONUTS OR BAGELS

Pastries are popular accompaniments to coffee. Among the most popular pairings to coffee include donuts and bagels.

On the surface, donuts appear to be the sweet cousin to the savory bagel. However, the donut is quite simply fried dough whereas a bagel is baked bread.

Despite these differences, both donuts and bagels are tasty companions to coffee. In the space below, design your perfect half-dozen box of either bagels or donuts. Draw toppings or color in each of the six pastries.
